CORPORATE TAX RATE

Taxable income is taxed at a flat rate of 21%.

ALTERNATIVE MINIMUM TAX

Taxpayers are subject to an “alternative minimum tax” (AMT) instead of the regular income tax when they have substantial “preference income.” This is income that is treated favorably under the regular income tax. Basically, the taxpayer must pay whichever tax is higher—the regular tax or the AMT.

Filing Status	2024 Exemption	2025 Exemption
Single or head of household	\$85,700	\$88,100
Married filing jointly	\$133,300	\$137,000
Married filing separately	\$66,650	\$68,500
Estates and trusts	\$29,900	\$30,700

The exemption amounts are phased out for higher-income taxpayers. The income thresholds are:

Filing Status	2024	2025
Married filing jointly	\$1,218,700	\$1,252,700
All other taxpayers	\$609,350	\$626,350

AMT Income in Excess of Exemption	2024	2025	AMT Rate
First	\$232,600*	\$239,100*	26%
Above	\$232,600	\$239,100	28%

*\$116,300 / \$119,550 for married persons filing separately

KIDDIE TAX ON UNEARNED INCOME

	2024	2025	Income Tax Bracket
First	\$1,300	\$1,350	No Tax
Next	\$1,300	\$1,350	Child's Bracket
Amounts Over	\$2,600	\$2,700	Parent's Bracket

The “kiddie tax” applies to: a) a child under age 18; b) a child age 18 whose earned income does not exceed one-half of his or her support; or c) a child age 19-23 whose earned income does not exceed one-half of his or her support, and who is a full-time student. Furthermore, the child does not file a joint income tax return and has at least one living parent at the end of the tax year.

INCOME TAXATION OF SOCIAL SECURITY BENEFITS

Retired taxpayers with incomes over certain threshold amounts are subject to income tax on their Social Security retirement benefits. The special tax base for determining whether a taxpayer's benefits are subject to tax equals one-half of Social Security benefits plus all other income (including tax-exempt income).

Filing Status	Tax Base	% of Benefits Taxed
Single or head of household	\$25,000 - \$34,000	50%
	Over \$34,000	85%
Married filing jointly	\$32,000 - \$44,000	50%
	Over \$44,000	85%
Married filing separately	Depends on whether the spouses live together during the tax year	

For example, a married couple filing jointly has an adjusted gross income of \$30,000, tax-exempt interest of \$3,000, and receives \$24,000 in Social Security benefits. The special tax base for the couple equals \$45,000, and \$6,850 of the Social Security benefits are taxable ($.50 \times \$12,000 = \$6,000$; $.85 \times \$1,000 = \850 ; total \$6,850).

Retirement Earnings Test Exemption Amounts

	2024	2025
Under full retirement age	\$22,320/year (\$1,860/month)	\$23,400/year (\$1,950/month)

Note: One dollar in benefits will be withheld for every \$2 in earnings above the limit.

	2024	2025
Year reaching full retirement age	\$59,520/year (\$4,960/month)	\$62,160/year (\$5,180/month)

Note: Applies only to earnings for months prior to attaining full retirement age. One dollar in benefits will be withheld for every \$3 in earnings above the limit.

STANDARD DEDUCTION

Amount - The standard deduction is a flat amount that a taxpayer may deduct in lieu of itemizing deductions. The standard deduction amount for each taxpayer category is:

Taxpayer Status	2024	2025
Single	\$14,600	\$15,000
Married filing jointly	\$29,200	\$30,000
Head of household	\$21,900	\$22,500
Married filing separately	\$14,600	\$15,000

Age 65 or Blind - Taxpayers who are age 65 or over, or who are blind, may take an additional standard deduction (provided they do not itemize). For 2024, the additional standard deduction amount was \$1,550 if married or \$1,950 if the person is unmarried and not a surviving spouse. For 2025, the additional standard deduction amount is \$1,600 if married or \$2,000 if the person is unmarried and not a surviving spouse.

ITEMIZED DEDUCTIONS

Interest Expense - Most personal interest paid is not deductible, with certain important exceptions:

Deductible	Not Deductible
1. Mortgage interest on one or two residences up to \$750,000 of indebtedness (applies only to new mortgages taken out after December 15, 2017; older mortgages remain tied to the \$1,000,000 cap)	1. Auto loan interest
2. Points on home mortgages	2. Credit card interest
3. Business interest	3. Home equity loan interest*
4. Investment interest up to net investment income	4. Most other consumer loan interest
	5. Prepaid interest other than points on home mortgages

State and Local Taxes - Itemizers may deduct either state and local income taxes or state and local sales taxes. Also, itemizers may deduct state and local real property taxes and personal property taxes. The combined deduction for state property and income taxes is capped at \$10,000. Taxpayers may not deduct state and local taxes in calculating the AMT unless they are deductible in computing adjusted gross income (“above-the-line” deductions, not itemized).

Medical and Dental Expenses - Expenses paid for nearly all medical, dental, and vision care during the year, and not reimbursed by insurance or other means, are deductible by itemizers to the extent that the total of such expenses exceeds 7.5% of AGI.

Losses - Individuals can deduct two basic types of losses: 1) business losses incurred in the taxpayer’s unincorporated business, or 2) investment losses if the investment was originally motivated by profit. Casualty and theft losses are not deductible except for declared national disasters.

*While the Tax Cuts and Jobs Act of 2017 eliminated the deduction for home equity interest for the years 2018-2025, the IRS determined that, subject to limitations, it will allow a deduction for interest from home equity loans or lines of credit secured by a taxpayer’s main home or second home that are used to buy, build, or substantially improve the residence (“home acquisition debt”).

DEDUCTION FOR QUALIFIED BUSINESS INCOME

Owners of pass-through entities are taxed on business income at their individual income tax rates but may claim a 20% deduction of their share of the business income—even if they elect to use the standard deduction instead of itemizing.

A number of “specified service trades or businesses” do not qualify for the deduction, subject to the following thresholds on qualified business income:

Taxpayer Status	2024	2025
Married filing jointly	\$383,900	\$394,600
All others	\$191,950	\$197,300

These business owners face a deduction limitation phase-in equal to \$100,000 for married filing jointly and \$50,000 for all other filers.

20%	over \$533,400	over \$600,050	over \$300,000	over \$566,700	over \$15,900

Holding Period - The long-term rate generally applies to gains on the sale of capital assets held for more than one year.

Short-Term Capital Gains - Net short-term capital gains (on sales of capital assets held for one year or less) are taxed at ordinary income rates.

Collectibles - Long-term capital gain from the sale of collectibles is taxed at a top rate of 28%.

Capital Losses - After capital gains and losses are netted against one another, any remaining net capital loss may be used to offset ordinary income up to \$3,000 per year. Any excess net capital loss may be carried over and used in future years.

Sale of a Principal Residence - A seller of any age who has owned and used real property as a principal residence for at least two of the last five years can exclude from gross income up to \$250,000 (\$500,000 if married filing jointly) of gain realized on a sale.

Additional Tax on High-Income Taxpayers - Individuals with more than \$200,000 in income (\$250,000 for a married couple filing jointly), who also have investment income, will pay an additional tax of 3.8% on net investment income or the excess of modified adjusted gross income over the threshold amount (whichever amount is less). Investment income is defined as the sum of gross income from items such as interest, dividends, annuities, royalties, and rents, as well as net gain attributable to the disposition of property (i.e., capital gains).

LONG-TERM CARE INSURANCE PREMIUMS - Deductibility Limits

Age	2024	2025

41-50	\$880	\$900
51-60	\$1,760	\$1,800
61-70	\$4,710	\$4,810
71 and over	\$5,880	\$6,020

Benefits received under a qualified long-term care insurance policy generally are excludable from gross income as amounts received for personal injuries and sickness, subject to a per diem limit. The per diem limit was \$410 for 2024 and \$420 for 2025.

DEDUCTIONS FOR CONTRIBUTIONS TO PUBLIC CHARITIES

Type of Property Contributed	Deemed Amount of Contribution	Percentage Limitation ¹ 2024 and 2025
Cash	Actual dollar amount	60%
Appreciated ordinary income property ² or appreciated short-term capital gain property ³	Donor's tax basis	50%
Appreciated long-term capital gain property ⁴		
(a) General rule	Fair market value	30%
(b) Election made to reduce amount of contribution	Donor's tax basis	50%
(c) Tangible personal property put to unrelated use by donee charity	Donor's tax basis	50%

¹ The applicable “percentage limitation” applies to the donor’s contribution base, which is the donor’s adjusted gross income (AGI) determined without regard to any net operating loss carryback. The limitation is applied on an annual basis. Any deductible contributions that exceed the current year’s limitations may be carried over and deducted in the five succeeding tax years, subject to the percentage limitations in those years.

² “Ordinary income property” is property that would produce ordinary income if sold by the individual.

³ “Short-term capital gain property” is property that would produce short-term capital gain if sold by the individual.

⁴ “Long-term capital gain property” is property that would produce long-term capital gain if sold by the individual.

INDIVIDUAL RETIREMENT ACCOUNTS

Traditional IRA

Contribution Limit - \$7,000 (\$8,000 for taxpayers age 50+) in 2024 and 2025. There is no age limit on making contributions to a traditional IRA.

Deduction Limit on Qualified Retirement Plan Participants -

- Taxpayers who do not participate in qualified retirement plans can deduct contributions to an IRA.
- Taxpayers who do participate in qualified retirement plans are subject to a reduced deduction based on modified adjusted gross income (MAGI).
- In 2024, the MAGI phase-out of the deduction for single taxpayers begins at \$77,000 and the deduction is lost at \$87,000. The MAGI phase-out of the deduction for married taxpayers filing jointly begins at \$123,000 and the deduction is lost at \$143,000.
- In 2025, the MAGI phase-out of the deduction for single taxpayers begins at \$79,000 and the deduction is lost at \$89,000. The MAGI phase-out of the deduction for married taxpayers filing jointly begins at \$126,000 and the deduction is lost at \$146,000.

Roth IRA

Contribution Limit - \$7,000 (\$8,000 for taxpayers age 50+) in 2024 and 2025.

Contribution Limit Based on Modified Adjusted Gross Income - The amount taxpayers can contribute to a Roth IRA is subject to a MAGI phase-out.

- In 2024, the MAGI phase-out on Roth IRA contributions by single taxpayers begins at \$146,000 and no contribution is permitted if MAGI is \$161,000 or more. The MAGI phaseout on Roth IRA contributions for married taxpayers filing jointly begins at \$230,000 and no contribution is permitted if MAGI is \$240,000 or more.
- In 2025, the MAGI phase-out on Roth IRA contributions by single taxpayers begins at \$150,000 and no contribution is permitted if MAGI is \$165,000 or more. The MAGI phaseout on Roth IRA contributions for married taxpayers filing jointly begins at \$236,000 and no contribution is permitted if MAGI is \$246,000 or more.

Deduction Limit - There is no deduction for a contribution to a Roth IRA.

REQUIRED MINIMUM DISTRIBUTIONS (RMDs)

The required beginning date for RMDs is April 1 of the year after the retirement account owner turns 73.

An individual who inherits retirement account assets must distribute those assets within 10 years of the account owner's death. Whether the owner of the inherited IRA must take RMDs during those 10 years depends on if the original owner passed away after they began taking RMDs. However, the following “Eligible Designated Beneficiaries” are excluded from this change and remain subject to the previous rules, which allow them to “stretch” payments over their life expectancy:

- Surviving spouses
- Minor children (until they reach the age of majority)
- Disabled or chronically ill individuals
- Individuals less than 10 years younger than the decedent

Qualified Charitable Distributions (QCDs) from an IRA can be taken starting at age 70½ and count toward the donor's RMD if one is due. The outright annual QCD (from the IRA directly to the charity) is tax-free up to \$108,000 (annual aggregate limit for 2025). The one-time, life-income QCD (used to fund a new charitable remainder trust or charitable gift annuity) is tax-free up to \$54,000 in 2025.

REQUIRED MINIMUM DISTRIBUTIONS: UNIFORM LIFETIME TABLE

The Uniform Lifetime Table is used to calculate lifetime required minimum distributions from qualified retirement plans (including 401(k) and 403(b) plans) and IRAs, unless the employee's beneficiary is a spouse who is more than 10 years younger or who is not the sole beneficiary. Married owners with a spouse who is more than 10 years younger use the Joint and Last Survivor Table.

For every calendar year for which a minimum distribution is required, find (1) the account balance on December 31 of the preceding year, (2) the account owner's age on his or her birthday during the distribution calendar year, and (3) the divisor that corresponds to that age in the Uniform Lifetime Table. The RMD for the distribution calendar year is (1) divided by (3).

IRAs funded with annuities may have additional benefits that need to be included when calculating RMD payments.

Note that the SECURE 2.0 Act increased the age to begin taking RMDs from 72 to 73 in 2023.

REQUIRED MINIMUM DISTRIBUTIONS: SINGLE LIFE EXPECTANCY TABLE

While the Uniform Lifetime Table determines RMDs during the owner's lifetime, the Single Life Expectancy Table determines RMDs for eligible designated beneficiaries who inherit IRAs or plan accounts. (Beneficiaries who are not eligible designated beneficiaries must withdraw the entire amount in the inherited account by the end of the tenth year following the year of inheritance and may be required to take RMDs in years one through nine.)

Eligible designated beneficiaries calculate RMDs using their birthday in the year following the account owner's death (which is the year distributions must begin), with the life expectancy number reduced by one for each subsequent year. Surviving spouses can take the first distribution in the year the account owner would have turned 73, then use their own age as of their birthday in each subsequent year.

The details of the distribution rules and calculations for inherited accounts are complex. Beneficiaries should work with a professional advisor.
